

Seeking Treasurer for 2021

Our current Treasurer's term will be ending this calendar year and we are looking for a new Treasurer to join our volunteer Board of Directors starting in January 2021.

The prospective Treasurer would join our October board meeting as a guest to meet the board and determine fit and nominations will be in November. (Board meetings are the 3rd Tuesday of each month at 6pm via Zoom.)

Seeking Volunteer Videographer

We are looking for a videographer who can donate their time and talent to help create a very short video on our newest partner family as they embark upon their journey to homeownership.

Dartmouth alum Emily Crocetti created a [video about the Hammond Family](#) last year and we loved it so much we wanted to make one about the Chin Family, who will be purchasing an existing Habitat home in Lebanon in Spring 2021. We will begin renovations on the home this fall.

The video will capture what homeownership means to the Chin Family as they begin sweat equity, work (physically distanced) with volunteers, purchase their home, and move in.

[Interested in helping? Please email Tracy.](#)

Correction & Clarification:

Dartmouth Students Design 3-BR Home with Dartmouth Center for Social Impact Support

In our last e-newsletter (June 2020), we wrote that Thayer School of Engineering students helped us design a new 3-bedroom home. It was in fact Professor Karolina Kawiaka's undergraduate Dartmouth engineering students who worked on this Social Impact Practicum (SIP) project.

The Social Impact Practicum initiative is created and sustained by the [Dartmouth Center for Social Impact](#) on campus. Associate Director Ashley Doolittle, Ph.D., has been enormously instrumental in helping match UVHFH with previous and future partnerships. Thank you, Ashley and the DSCI, for your continued support, guidance and coordination!

SIP projects provide a valuable service to local organizations while allowing students to work on a real world application and project. We hope to continue this partnership for many years to come!
