

We're Hiring! Seeking Paid, Part-Time Project Manager

Our long-time Site Supervisor, Jim Masland, will be retiring from UVHFH after over 15 years with us.

Jim has worked on many Habitat homes and has worked with nearly all the volunteers that have helped swing a hammer on our projects over the past decade and a half.

We are now [seeking a paid, part-time Project Manager](#) to fill his shoes.

This PM will be responsible for the overall management, supervision & execution of all UVHFH construction projects, starting with the new home we will break ground on in Lebanon this spring.

Jim on the construction site in Sharon, VT in 2018

The PM's time will be spent both on and off the build site; in managing the overall project and also overseeing volunteers on site.

This person will work directly with our Building Committee, Executive Director, subcontractors, suppliers, volunteers and more.

[Click here](#) for a position description & information about applying or [contact Eva](#) with questions.

UVHFH will accept applications until the position is filled. UVHFH is an EOE.

Seeking Skilled, Regular Volunteers

To compliment the Project Manager position, we are looking to build up a cadre of skilled, regular volunteers. These "Key volunteers" will become our "A-Team" - **people we can rely on to regularly help carry out the construction work on the build site.**

These volunteers will help with construction on the build site regularly, work closely with the Project Manager, and will be willing to take an online "Competent Person" safety certification through Habitat for Humanity International. This training allows an individual to work alone on the build site or supervise others.

This is an excellent opportunity to get to work directly with and get to know the partner family; build friendships with other key volunteers; and share in the satisfaction and reward of working towards a shared & meaningful goal.

We keep the cost of our homes low by using as much volunteer labor as possible. Our affiliate is fortunate to have a few part time staff members and we are very careful about the paid labor that goes into a home to keep the cost down. Being able to rely on dedicated, regular key volunteers is a critical factor in keeping our homes affordable for our partner families.

Want more information or to sign up to become a Key Volunteer? Please [email Eva](#) or call 802.295.1854!

We look forward to having you on board!

Adriana Lucas, Board Member; Sean Columbia, Hypertherm; Jim Masland, Site Supervisor; & Rick Rheaume, Hypertherm take a break while helping renovate a home in Lebanon this fall.

Looking to Help In Other Ways?

Consider making a donation!

When you donate to your local affiliate, your donation stays in the community. It is used to purchase building materials from local suppliers, pay local subcontractors for work we must hire out for, and cover staffing needs. You can even contact us directly if you'd like to discuss donating towards a specific project.

Thank you for your support!
