## The Cayer's Story

Things are moving right along at the Cayer house in Sharon. [Follow us on Facebook](#) for updates.

The Valley News wrote an excellent article about the Cayer's journey to Habitat homeownership. [Read it here.](#)

Your donations make dreams a reality for our partner families. Please consider making a donation to the Cayer home by [donating here.](#)

## Completing Pearl Street Project

Our Neighborhood Revitalization project in Claremont, NH, is nearing completion on the Pearl Street home we started in June 2017.

In August, Chimney Savers Inc. donated their time and services to rebuild and line two brick chimneys at this property.

This was one of the last activities of the home rehabilitation project, which included major work to the plumbing and heating systems, kitchen and bath, roof, as well as structural repairs, storm window replacement, and painting.

Are you a homeowner in Claremont seeking assistance with home repairs? [Contact us!](#)

## Claremont Chapter & Lead Abatement Program

We are looking for 6 to 8 Claremont residents to help develop a local Claremont Habitat chapter. The goal is to increase effectiveness and empower Claremont residents and families to create a thriving community through local leadership, outreach, and guidance.

We are also working with existing Claremont

groups and officials to form a lead abatement program to serve the community.
